

### Easy Grounding Kits

Benelec's Easy Grounding Kits have been designed together with installation companies to afford simple and safe installation.

Benelec's Grounding Kits offer following features:

- Functional grounding and/or functional potential equalization of cables with corrugated outer conductor for sizes 1/2", 7/8", 1 1/4", 1 5/8" and 2 1/4".
- Reduction of installation time to approx. 3 - 4 minutes.
- Weather and aging resistance by use of especially high-quality materials.
- No additional sealing with butyl rubber tapes.

## Specifications

### Materials

**Case:** Metal components of high-grade steel V2A,  
Contact by coated and corrugated copper material,  
Locking with socket head screw 5mm

**Cuff:** Rubber, treated with gave- and acid-free oil on silicone basis

**Earth wire:** 16 mm<sup>2</sup> copper, stranded wire, black coat (other coat colours on request)

**Terminal:** Stainless steel with 10,5 mm bore-hole, connection sealed with heat-shrink tube

**Screw joint:** M8 x 30, Stainless steel

## Product Numbers, Packing Units, & Weights

cable type	product no.	packing units [pcs.]	weights [kg]
1/2"	842010501	20	5
7/8"	842010701	20	6
1 1/4"	842011001	10	4
1 5/8"	842011201	10	5
2 1/4"	842011401	10	6
