

TIE WRAPS

Tie Wraps provide temporary support for 1/2" (13mm) and smaller coax jumpers while securing hangers into position. The 15" (381mm) Tie Wraps are crafted from nylon and support a maximum bundle of approximately 4" (102mm) in diameter.

Part #	Description	Kit Qty.	Wt.lbs (Wt.kg)
TW-50	Tie Wraps	Kit of 50	0.4 (0.2)

CABLE TIES

Part #	Description	Kit Qty.	Wt.lbs (Wt.kg)
TW4	Cable Tie, 4" long, 7/8" bundle, 18lb. tensile strength	Kit of 100	1.0 (0.1)
TW6	Cable Tie, 5.7" long, 1-3/8" bundle, 40lb. tensile strength	Kit of 100	2.0 (1.0)
TW8	Cable Tie, 7.5" long, 1-3/4" bundle, 50lb. tensile strength	Kit of 100	3.0 (1.4)
TW11	Cable Tie, 11" long, 3" bundle, 50lb. tensile strength	Kit of 100	4.0 (1.8)
TW15	Cable Tie, 14.5" long, 4" bundle, 50lb. tensile strength	Kit of 100	5.0 (2.3)
TW8HD	Heavy Duty Cable Tie, 8" long, 2" bundle, 120lb. tensile strength	Kit of 100	6.0 (2.7)
TW15HD	Heavy Duty Cable Tie, 15.2" long, 4-1/4" bundle, 120lb. tensile strength	Kit of 100	12.0 (5.5)
TW24HD	Heavy Duty Cable Tie, 24" long, 6-1/4" bundle, 175lb. tensile strength	Kit of 50	12.0 (5.5)
TW36HD	Heavy Duty Cable Tie, 36" long, 10-1/4" bundle, 175lb. tensile strength	Kit of 50	18.0 (8.2)

LACE-UP HOISTING GRIPS

Lace-Up Hoisting Grips provide an effective means for hoisting coax and elliptical waveguide into position and can be utilized to provide additional support once in place. The lace-up design allows the hoisting grip to be attached even when the run has been connectorized and facilitates easy positioning at 200' (61m) increments on long coax runs. Lace-Up Hoisting Grips for coaxial cables include a self-locking clip and sealing tape to provide additional support both during and after installation.

App. Size	Coax Support Versions for coax and elliptical waveguide	Mounts to	-
Design	Mesh grip with single eye support	Material	Tinned bronze
Feature	Lace-up installation at any point on coax	Incl.	Grip, self-locking clip, tape
		Order Sep.	-

Part	Description	Kit Qty.	Wt.lbs (Wt.kg)
Coax			
HG-12	Lace-Up Hoisting Grip for 1/2" corrugated coax	Each	0.3 (0.1)
HG-58	Lace-Up Hoisting Grip for 5/8" corrugated coax	Each	0.4 (0.2)
HG-78	Lace-Up Hoisting Grip for 7/8" corrugated coax	Each	0.6 (0.3)
HG-114	Lace-Up Hoisting Grip for 1-1/4" corrugated coax	Each	0.6 (0.3)
HG-158	Lace-Up Hoisting Grip for 1-5/8" corrugated coax	Each	1.3 (0.6)
HG-214	Lace-Up Hoisting Grip for 2-1/4" corrugated coax	Each	1.3 (0.6)

PRE-LACED HOISTING GRIPS

Pre-Laced Hoisting Grips feature a closed-mesh design which simplifies installation over traditional split, lace-up style grips. The unique design allows the Pre-Laced Hoisting Grip to slip over an unterminated end of coax. The grip securely tightens when pulled, providing an effective means to hoist coax into position and to provide additional support for the coax once in place. Pre-Laced Hoisting Grips for coaxial cables include a self-locking clip and sealing tape to provide additional support both during and after installation.

App.	Coax Support	Mounts to	-
Size	3/8" to 2-1/4" coax	Material	Tinned bronze
Design	Mesh grip with single eye support	Incl.	Grip, self-locking clip, tape
Feature	Pre-Lace to simplify installation	Order Sep.	-

Part #	Description	Kit Qty.	Wt. lbs (Wt. kg)
HG-38L	Pre-Laced Hoisting Grip for 3/8" corrugated coax	Each	0.3 (0.1)
HG-12L	Pre-Laced Hoisting Grip for 1/2" corrugated coax	Each	0.4 (0.2)
HG-58L	Pre-Laced Hoisting Grip for 5/8" corrugated coax	Each	0.4 (0.2)
HG-78L	Pre-Laced Hoisting Grip for 7/8" corrugated coax	Each	0.5 (0.2)
HG-114L	Pre-Laced Hoisting Grip for 1-1/4" corrugated coax	Each	0.5 (0.2)
HG-158L	Pre-Laced Hoisting Grip for 1-5/8" corrugated coax	Each	1.3 (0.6)
HG-214L	Pre-Laced Hoisting Grip for 2-1/4" corrugated coax	Each	1.3 (0.6)

NOTE: Sizes available for smooth wall coax.
